### Second Fiscal Quarter Estimates

In a series of meetings beginning on April 19, 2006, officers of the Company disclosed to employees of its subsidiaries certain preliminary information concerning the Company's consolidated results of operations for the month of March and the quarter ended March 31, 2006 (the "Second Fiscal Quarter Estimates"). This information has also been disclosed by the Company to numerous parties (under confidentiality agreements) in connection with various ongoing negotiations in connection with the Company's proceedings in the United States Bankruptcy Court for the Northern District of Texas, Dallas Division (the "Bankruptcy Court"). The Second Fiscal Quarter Estimates are filed as Exhibit 99.1 hereto. Because these results are preliminary estimates, each item included in the Second Fiscal Quarter Estimates for March and for the quarter ended March 31, 2006 is set forth in a range, with both a high and low value set forth.

For the quarter ended March 31, 2006, the Second Fiscal Quarter Estimates set forth preliminary estimated revenues from continuing operations of \$242.8 million to \$246.8 million, preliminary estimated operating losses from continuing operations of \$2.4 million to \$5.7 million, and preliminary estimated net losses from continuing operations of \$12.5 million to \$15.8 million.

The Company has previously disclosed in its Current Report on Form 8-K dated April 3, 2006 that it has committed to the winding-down or earlier sale or disposition of certain underperforming subsidiaries, which were identified in its subsequent Current Report on Form 8-K dated April 5, 2006 (the "Subsidiaries"). For the quarter ended March 31, 2006 excluding the portion of the preliminary estimated revenues and net losses attributable to the Subsidiaries, and certain charges incurred in connection with their wind-down, the portion of the preliminary estimated revenue from continuing operations that is attributable to the Company's other subsidiaries in the aggregate is \$223.9 million to \$227.9 million, and the portion of the preliminary estimated operating income from continuing operations that is attributable to the Company's other subsidiaries in the aggregate ranged from an operating income of \$5.7 million to \$2.4 million.

The Second Fiscal Quarter Estimates are limited in scope and cover a limited time period. The Second Fiscal Quarter Estimates are unaudited, have not been reviewed by the Company's independent registered public accounting firm and do not purport to show the financial statements of the Company in accordance with accounting principles generally accepted in the United States ("GAAP"), and therefore exclude items required by GAAP, such as certain reclassifications, eliminations, accruals, and disclosure items. The Second Fiscal Quarter Estimates may not reflect all quarter-end adjustments and are preliminary, and thus do not represent the final results of the Company for the quarter ended March 31, 2006. The Company cautions readers not to place undue reliance upon the Second Fiscal Quarter Estimates. There is no assurance that such information is complete. The information in the Second Fiscal Quarter Estimates should not necessarily be viewed as indicative of future results.
